

Report

on the **PLANTSVITA** Section within 20th DANUBE-KRIS-MURES-TISZA EUROREGION CONFERENCE ON ENVIRONMENT AND HEALTH

September 7-8, 2018

Arad, Romania

The **PLANTSVITA** Section took place on 7th September 2018 at the “Vasile Goldish” Western University of Arad, Arad, Romania. It was organized as a project promotion event within the frames of the 20th DANUBE-KRIS-MURES-TISZA EUROREGION CONFERENCE ON ENVIRONMENT AND HEALTH in order to communicate and disseminate the results obtained in the first trimester of **PLANTSVITA** project (*Development of soil type adapted microbiological products promoting ecological pest management*; HUSRB 1602/41/0031).

The **PLANTSVITA** Section was consisted of the following lectures:

- “**OCCURRENCE OF HEAVY ELEMENTS IN VEGETABLES CULTIVATED ON SLIGHTLY ACIDIC SOILS OF THE VOJVODINA PROVINCE**” delivered by Prof. Biljana Škrbić, University of Novi Sad, Faculty of Technology Novi Sad;
- “**MONITORING BIOCONTROL MICROORGANISMS IN AGRICULTURAL ENVIRONMENTS: TRICHODERMA IN THE SPOTLIGHT**” delivered by Dr. László Kredics, University of Szeged;
- “**NOVEL SEQUENCES OF PEPTAIBIOTICS FROM THE FILAMENTOUS FUNGAL GENUS TRICHODERMA**” delivered by Tamaš Marik, University of Szeged;

Also, project related posters “**HEAVY ELEMENT CONCENTRATIONS IN AGRICULTURAL SOIL FOR ORGANIC FOOD CROP PRODUCTION**” and “**METAL CONTENT IN AGRICULTURAL SOIL USED IN ORGANIC PLANT PRODUCTION**” were presented by Dr. Nataša Đurišić-Mladenović, University of Novi Sad, Faculty of Technology Novi Sad and Igor Vukelić, Educons University, Sremska Kamenica, respectively.

All prepared materials related to the section (the abstracts and the presentations) include the obligatory elements and have been approved in Back Office well before the section.

Prof. Dr. Biljana Škrbić, President of DKMT Assembly, opening the 20th DANUBE-KRIS-MURES-TISZA EUROREGION CONFERENCE ON ENVIRONMENT AND HEALTH at Ferdinand Hall of the Arad City Hall
